

Associate of Science Part Time

Below you will find an example plan of what a part-time student may follow to complete their degree within 8 semesters or four years. This may be modified/extended by placement tests, major and transfer requirements. It is not intended to be completed as written, but only as an example. Please work with your Counselor to create a personal course plan for your timeframe, major and transfer university. Program requirements vary from university to university and it is HIGHLY recommended you work with a Counselor to choose your courses.

The degree requires completion of 60 college level credits including the General Education (Gen. Ed.) requirements listed on the course plan below with a cumulative GPA of a 2.0 on a 4.0 scale or higher to graduate.

Semester One

ENG 1001 - 3

MATHEMATICS - 3 (MIN)

Semester Two

ENG 1002 - 3

SPH 1001 -3

MATHEMATICS – 3 (MIN)

Semester Three

Elective/Major Course - 4
